

Danske Harmonikaspijleres Landsforbund (DHL)

Accordion Activities in Denmark: We are experiencing a broad popularity of the accordion in Denmark among our amateurs.

We work together with our more than 70 accordion clubs, a large number for our small country.

Throughout the year these clubs will arrange festivals – we have more than 30 of them – where the participants play for each other and have a pleasant time together with the instrument.

At these festivals you play solo, duo, in groups and orchestras as well as playing with other instruments. There is no competition – just a time where accordionists can play for each other.

The largest festival – from which the photo on the left comes – gathers more than 800 accordion players and an audience of more than 15.000 people.

CIA Future Events
